Cookies Policy – May 2021

Cookies are small text files stored on your computer when you visit certain websites. We use first party cookies (cookies that we have set, that can only be read by our website) to personalise your online experience. We also use third party cookies (cookies that are set by an organisation other than the owner of the website) for the purposes of website measurement and targeted advertising. You can control the use of cookies via your browser.

Links to other websites

Our website may, from time to time, contain links to and from the websites of our partner networks, advertisers and affiliates. If you follow a link to any of these websites, please note that these websites have their own privacy policies and privacy notices and that we don't accept any responsibility or liability for these policies. Please check these policies before you submit any personal data to these websites. This privacy notice applies solely to the personal data collected by the DNHAS.

Online Payment Card Security

The DNHAS has an active PCI-DSS compliance programme in place. This is the international standard for safe card payment processes. As part of our compliance to this very stringent standard, we ensure that our IT systems do not directly collect or store payment card information; for example the full 16 digit number on the front of the card or the security code on the back. Our online payment solutions are carried out using a 'payment gateway' which is a direct connection to a payment service provided by a bank. This means that when you input card data into an online payment page, you are communicating directly with the bank and the bank passes your payment to us, this means that your payment card information is handled by the bank and not processed or held by us.
